

provides that a person having a learner's permit can be seated behind the driver of a motorcycle. The original bill provided the age of 21 to be applied to the driver of the motorcycle and since the age of majority has been lowered to 19, the testimony that came before the committee it was the committee decision to lower the age from 21 to 19 as far as the driver of the motorcycle is concerned. So it just lowers the age of the driver from 21 to 19 to be in harmony with the majority age.

SPEAKER: Senator, are you speaking about the amendments?

SENATOR KREMER: The amendments. This is right. I move the amendments.

SPEAKER: Is there just the one amendment? Senator Kremer has--

SENATOR KREMER: Well, there is two places in the bill that they changed it, 21 to 19, so there are two amendments.

SPEAKER: Are you moving that those amendments be adopted?

SENATOR KREMER: I did, sir. Yes, I moved that the amendments be adopted.

SPEAKER: Senator Kremer has moved that the committee amendments be adopted. Is there any discussion. If not, all those in favor say aye, those opposed no. The amendments are adopted. Are there any further amendments to the bill. If not, what will you do with the bill.

SPEAKER: Senator Stull.

SENATOR STULL: Mr. President, members of the Legislature, the reason for this bill, we had some problem in the area where student teachers would go out and were involved in drivers education courses and some of them were actually not 21 years of age. I proposed to lower that to 20 and I think that would have taken care of the problem and it has been amended now to 19. We, also, had a problem in the case of motorcycle and the statutes made no distinction, whatsoever, in the case of a motorcycle and if you interpret the statute real strict, the person that accompanied a holder of a learner's permit, he was to sit beside him. Well, of course, this was impossible to do in the case of a motorcycle so amended the statutes to say immediately behind the driver. Mr. President, I would move that LB 90 be moved as amended to E & R Initial.

SPEAKER: It has been moved and seconded that LB 90 be advanced to E & R Initial as amended. Is there any further discussion. If not, are you ready for the question. All those in favor vote aye, those opposed vote no. Have you all voted? The clerk will record.

CLERK: 35 ayes, 0 nays, 14 not voting, Mr. President.

SPEAKER: The bill is advanced. The next bill is LB 144.

CLERK: Read title. LB 144. Mr. President, there are committee amendments and I believe there are substitute committee amendments. There should be a motion to reject the committee amendments and then a motion to adopt the substitute amendments.

SPEAKER: Yes, is there a motion to reject the committee amendments and adopt the substitute amendments. Senator Kremer.

SENATOR KREMER: Mr. Chairman, I do move that the committee amendments as they appear in your book and also in the Journal
